INSPIRED BY THE PAST, BUILDING FOR THE FUTURE!

Hello Alumni, Parishioners, friends of Holy Name and supporters of the Restore The Glory project!

My name is Fr. Carl Zoucha, the new pastor at Holy Name Parish. I was assigned here July 1st and it has been a very blessed three months since I arrived. I pray that all is well with you and your loved ones.

I was born and raised in Columbus, Nebraska, the second of five children. Our family attended St. Anthony parish in Columbus, including grade school and then Scotus High School. My parents, Rafael and Lorraine, are deceased. I value Catholic education and am thankful for the CUES administration and their work for Holy Name School.

I can easily sense the pride exuding from all of you for Holy Name parish and school. I hear that same pride from those who attended Holy Name recently or perhaps from years ago. While the make up of the student body is different than a generation or two ago, the same mission to educate minds and to form virtuous character of the youth and children is still the priority. The Restore The Glory project to renovate the Field House and build a connecting structure to the school with common rooms will add so many resources to this mission. What I am excited about when I envision what is being proposed is the benefits that extend beyond the students of the school and parish; this project is a blessing for our community of North Omaha.

Obviously we are in very difficult times with the pandemic, the economic and societal tensions that are present in our world today. Yet, our Catholic Christian faith inspires us to move forward in hope to be able to proclaim our love for God and neighbor because Jesus has commanded us to do so as disciples. May the Restore The Glory project be a shining example of our commitment to help one another with the resources that God has blessed upon us. I have met so many wonderful people who support the parish, the school and the RTG project. I look forward to the opportunity to meet many more of you, whether in person or virtually. Thank you for support and prayers. Please know of my prayers for you and all of your loved ones.

In His Holy Name,

Fr. Carl J. Zoucha, Pastor, Holy Name Catholic Church, Omaha (402-451-6622)

Our Work Continues! Over the summer some preliminary tasks were completed. Working with the CUES Building and Grounds committee a company was hired to do some excavation on the east side of the school building to assess and alleviate water drainage issues that have plagued that side of the building for years. Work was done on the drainage and the excavated area was treated and refilled. We also hired a Survey Team to begin the site planning for the project. The site plan is complete and work will begin to bring groups of folks together to view the drawings and add necessary input so that the plans encompass the most critical needs for the community.

The Goal: Phase I (\$3.37MM) is a complete renovation of the original structure and a new addition connecting the field house to the school. The field house will be available for physical education, athletics, parish, school and community activities. **Phase II (\$1.63MM)** will provide an investment of \$1MM for continued maintenance of the newly renovated building and utilize the space in the new addition for after school programming.

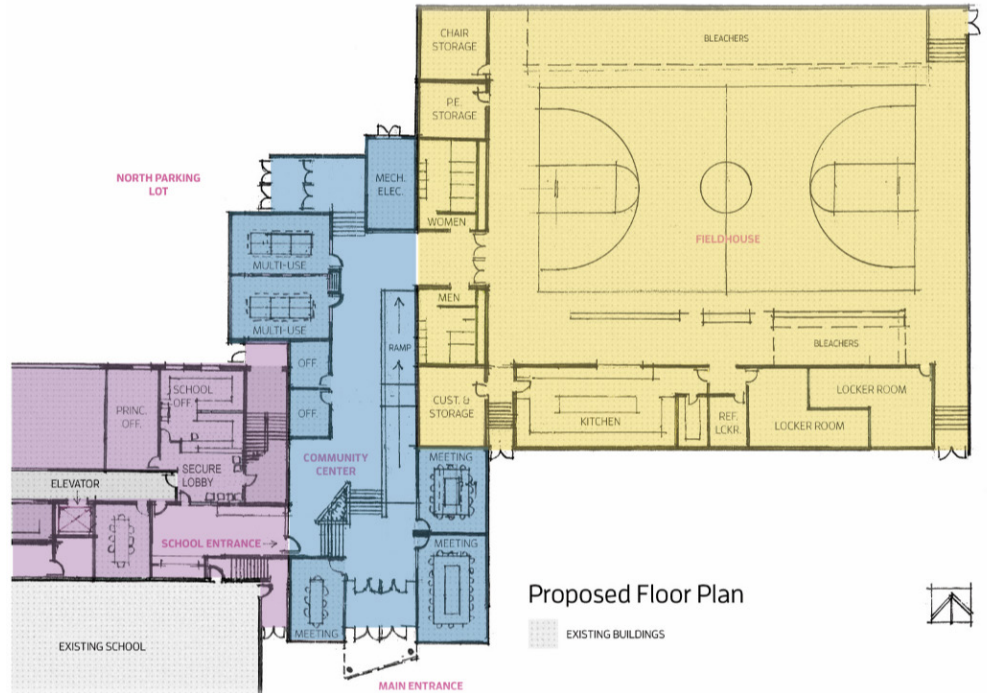

As we move into fall we hope you and your families will get the chance to stop and look at the beautiful colors of Autumn. These colors will lead us to Thanksgiving and then to Advent as we prepare for the coming of Christmas. This year will look different for most families during these holidays, more intimate and most likely more meaningful. Our prayers are with you during these blessed seasons and we are grateful for your support of the Restore The Glory project. Thank you for all that you do for the children!

INSPIRED BY THE PAST, BUILDING FOR THE FUTURE!

The Restore The Glory Campaign to renovate and add additional space to the Holy Name Campus is about new building and safe spaces. Since 1950 students and children from the surrounding community have experienced healthy competitive opportunities that teach confidence and resilience. Today, for the children of this area of Omaha the need is great. The Holy Name community has become diverse naturally along with the surrounding neighborhood. We have expanded community services for not only Holy Name but the surrounding community as well.

You are the reason that this campaign started! You are part of the fabric of one hundred years of Holy Name history. We are grateful for your support and ask that you continue to spread the word about this great project. The children are returning to school across the country and our work is important to their success in the future.

Share in the joy of our diversity! Our work continues as we strive to serve those most marginalized by the upheaval this Pandemic has caused for so many families. We are serving those who need us most!

Hope at Holy Name School!

Holy Name School began a partnership with the Hope Center for Kids three years ago. This partnership is focused on the necessary structure and support these students need during out of school time hours. The most important aspect of this campaign comes after the renovations and additional spaces are complete. The second phase will implement and expand programming to as many as 250 youth in North Omaha.

CONTINUE THE EXCELLENCE!

The **Restore The Glory** campaign is proud to boast committed gifts of over \$2,000,000 for the project. As always the Ramblers are stepping up to provide amazing opportunities for children today and into the next generation. Ten percent of your gift to the campaign supports Holy Name School. Honors and Memorials are welcome! Be a part of the second rising of the field house with your gift today!

1. Renovate and modernize the existing Field House.
2. Build a New Community Center for the Parish, School and surrounding neighborhood.
3. With the addition of the new community center, provide a new main entrance for Holy Name School.
4. Integrate After School programming in partnership with the Hope Center for Kids.
5. The future use of modern Solar Technology.
